Fm: Guilford Mooring, Superintendent of Public Works

Subj: Supporting Information for Article 31

Attachments: Proposed Taking Layout

The proposed changes at University Drive and Big Y will require about 6400sqft of additional street layout to accommodate the proposed changes. The area to be taken is on the Big Y store property and is shown on the attached drawing in yellow.

The following items are proposed in this new area:

1. A new sidewalk.
2. New traffic signal equipment.
3. Three handicapped access curb cuts for the crosswalks.
